PREPARED BY
Elena Marin, SenecAI

Draft: not approved. This document has not been approved by a named reviewer and must not be relied on as the reviewed assessment.

APPLICABILITY CHECK

Run on 11 November 2026 on legal content 2026.10-draft.1. Only the EU AI Act is covered in this version of the platform; other findings are shown for information.

REGULATION	RESULT	PROVISION	FINDING
EU AI Act (Regulation (EU) 2024/1689)	Applies	**Art. 2(1)**	Applies. The AI inventory and classification are opened for this client.
GDPR (Regulation (EU) 2016/679)	Applies	**Art. 2(1), Art. 3**	Applies to the processing of personal data. Not covered by the Hub in this version.
DORA (Regulation (EU) 2022/2554)	Likely	**Art. 2(1)**	Likely applies if the company is one of the financial entities listed in Art. 2(1). Not covered by the Hub in this version.
NIS2 (Directive (EU) 2022/2555)	Likely	**Art. 2(1), Annexes I–II**	Likely applies to medium and large entities in the sectors of Annexes I and II, as transposed nationally. Not covered by the Hub in this version.

This PDF is a dated snapshot of the structured record kept in the Governance Hub. It is not edited: when the record changes, the document is marked outdated and a new version is generated. Classification, obligations and dates come from the versioned legal content named above, not from AI. Narrative source: filled from the rules and reviewer rationales (no AI drafting). Input hash 72648d0e5751ffcb.

STEP 3 · ARTS. 8 TO 27, 43, 47 TO 49, 72, 73

Obligation mapping

OBLIGATION SUMMARY

9 obligations apply to CV Screening Assistant, carried by the company as deployer. **[Art. 4; Art. 26(1); Art. 26(2); Art. 26(4); Art. 26(5); Art. 26(6); Art. 26(7); Art. 26(11); Art. 86]**

24 obligations apply to Credit Scoring Engine, carried by the company as provider and deployer. **[Art. 4; Art. 9; Art. 10; Art. 11, Annex IV; Art. 12; Art. 13; Art. 14; Art. 15; Art. 17; Art. 43; Art. 47; Art. 48; Art. 49(1); Art. 72; Art. 73; Art. 26(1); Art. 26(2); Art. 26(4); Art. 26(5); Art. 26(6); Art. 26(7); Art. 26(11); Art. 27; Art. 86]**

3 obligations apply to Customer Support Chatbot, carried by the company as provider and deployer. **[Art. 4; Art. 50(1); Art. 50(2)]**

1 obligation applies to Fraud Detection Alerts, carried by the company as provider and deployer. **[Art. 4]**

Application dates come from legal content 2026.10-draft.1. The timeline for high-risk obligations has been under proposed amendment and may move; a change marks this document outdated.

1. CV Screening Assistant

Pre-ranks external candidates for open roles before HR review. · Owner: Laura Petrescu · Bought (TalentRank BV) · High-risk · Deployer

ARTICLE	OBLIGATION AND WHY IT APPLIES	CARRIED AS	APPLIES FROM
Art. 4	**AI literacy** Take measures to ensure that staff and others who operate or use the system on the company's behalf have a sufficient level of AI literacy, taking into account their knowledge, experience and the context of use. Why it applies: Applies to every provider and deployer of an AI system in scope, whatever its risk class.	Deployer	2 February 2025 Art. 113(a)
Art. 26(1)	**Use in line with the instructions for use** Take appropriate technical and organisational measures to use the system in accordance with the instructions for use that accompany it. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(2)	**Assign human oversight** Assign human oversight to people who have the necessary competence, training and authority, and give them the support they need. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(4)	**Relevant input data** To the extent the company controls the input data, ensure it is relevant and sufficiently representative for the system's intended purpose. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(5)	**Monitor operation and inform the provider** Monitor the system's operation on the basis of the instructions for use, inform the provider of risks, suspend use where needed, and report serious incidents. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(6)	**Keep the logs** Keep the automatically generated logs under the company's control for a period appropriate to the purpose, of at least six months unless other law provides otherwise. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113

DRAFT

Art. 26(7)	**Inform workers and their representatives** Before putting the system into service or using it at the workplace, inform workers' representatives and the affected workers that they will be subject to it. Why it applies: The company is a deployer of a high-risk system. This applies when the system is used at the workplace.	Deployer	2 August 2026 Art. 113
Art. 26(11)	**Inform people subject to decisions** Where an Annex III system makes or assists decisions about natural persons, inform them that they are subject to the use of the system. Why it applies: The company deploys an Annex III high-risk system that makes or assists decisions about people.	Deployer	2 August 2026 Art. 113
Art. 86	**Right to explanation** A person subject to a decision based on an Annex III system's output that has legal or similarly significant effects can ask the deployer for a clear and meaningful explanation of the system's role and the main elements of the decision. Why it applies: The company deploys an Annex III high-risk system whose output feeds decisions about people.	Deployer	2 August 2026 Art. 113

2. Credit Scoring Engine

Scores retail loan applicants' creditworthiness and feeds the underwriting decision. · Owner: Mihai Georgescu · Built · High-risk · Provider & Deployer

ARTICLE	OBLIGATION AND WHY IT APPLIES	CARRIED AS	APPLIES FROM
Art. 4	**AI literacy** Take measures to ensure that staff and others who operate or use the system on the company's behalf have a sufficient level of AI literacy, taking into account their knowledge, experience and the context of use. Why it applies: Applies to every provider and deployer of an AI system in scope, whatever its risk class.	Provider & Deployer	2 February 2025 Art. 113(a)
Art. 9	**Risk management system** Establish, document and maintain a risk management system running through the whole lifecycle: identify and analyse foreseeable risks to health, safety and fundamental rights, estimate them, adopt mitigation measures and test the system. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 10	**Data and data governance** Training, validation and testing data must be subject to governance practices: documented design choices and collection, examination for possible biases, and data that is relevant, representative and as free of errors as possible. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 11, Annex IV	**Technical documentation** Draw up technical documentation before the system is placed on the market or put into service, with at least the elements of Annex IV, and keep it up to date. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113

DRAFT

Art. 12	**Record-keeping (logging)** The system must technically allow automatic recording of events (logs) over its lifetime, sufficient to identify risks, support post-market monitoring and monitor its operation. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 13	**Transparency and instructions for use** Design the system so deployers can interpret and use its output, and provide instructions for use covering the provider's identity, the system's characteristics, capabilities and limitations, human oversight measures and expected lifetime. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 14	**Human oversight by design** Design the system so natural persons can effectively oversee it while in use: understand its capacities and limits, detect anomalies, avoid automation bias, interpret output, and override or stop it. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 15	**Accuracy, robustness and cybersecurity** Achieve an appropriate level of accuracy, robustness and cybersecurity throughout the lifecycle, declare accuracy metrics in the instructions for use, and protect the system against errors, feedback loops and attacks such as data poisoning. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 17	**Quality management system** Put in place a documented quality management system covering compliance strategy, design and development controls, testing, data management, risk management, post-market monitoring, incident reporting and accountability. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 43	**Conformity assessment** Before placing the system on the market or putting it into service, carry out the applicable conformity assessment procedure (internal control under Annex VI, or with a notified body under Annex VII where required). Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 47	**EU declaration of conformity** Draw up a written EU declaration of conformity with the content of Annex V for each system and keep it for 10 years. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 48	**CE marking** Affix the CE marking visibly, legibly and indelibly to the system, or digitally for systems provided digitally, or to its packaging or documentation. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 49(1)	**Registration in the EU database** Before placing an Annex III high-risk system on the market or putting it into service, register the company and the system in the EU database (Art. 71). Why it applies: The company is the provider of a high-risk system listed in Annex III.	Provider	2 August 2026 Art. 113

DRAFT

Art. 72	**Post-market monitoring** Establish and document a post-market monitoring system that collects and analyses data on the system's performance throughout its lifetime, based on a post-market monitoring plan. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 73	**Serious incident reporting** Report any serious incident to the market surveillance authority of the Member State where it occurred, immediately after establishing a causal link and no later than 15 days after becoming aware of it (shorter deadlines for widespread infringements and deaths). Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 26(1)	**Use in line with the instructions for use** Take appropriate technical and organisational measures to use the system in accordance with the instructions for use that accompany it. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(2)	**Assign human oversight** Assign human oversight to people who have the necessary competence, training and authority, and give them the support they need. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(4)	**Relevant input data** To the extent the company controls the input data, ensure it is relevant and sufficiently representative for the system's intended purpose. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(5)	**Monitor operation and inform the provider** Monitor the system's operation on the basis of the instructions for use, inform the provider of risks, suspend use where needed, and report serious incidents. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(6)	**Keep the logs** Keep the automatically generated logs under the company's control for a period appropriate to the purpose, of at least six months unless other law provides otherwise. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(7)	**Inform workers and their representatives** Before putting the system into service or using it at the workplace, inform workers' representatives and the affected workers that they will be subject to it. Why it applies: The company is a deployer of a high-risk system. This applies when the system is used at the workplace.	Deployer	2 August 2026 Art. 113
Art. 26(11)	**Inform people subject to decisions** Where an Annex III system makes or assists decisions about natural persons, inform them that they are subject to the use of the system. Why it applies: The company deploys an Annex III high-risk system that makes or assists decisions about people.	Deployer	2 August 2026 Art. 113

DRAFT

Art. 27	**Fundamental rights impact assessment** Before first use, assess the impact on fundamental rights: the processes in which the system is used, the period and frequency of use, the people affected, the specific risks of harm, human oversight measures and the measures if risks materialise. Notify the market surveillance authority of the results. Why it applies: The company deploys an Annex III high-risk system and is a public body or provides public services, or the system evaluates creditworthiness or prices life or health insurance.	Deployer	2 August 2026 Art. 113
Art. 86	**Right to explanation** A person subject to a decision based on an Annex III system's output that has legal or similarly significant effects can ask the deployer for a clear and meaningful explanation of the system's role and the main elements of the decision. Why it applies: The company deploys an Annex III high-risk system whose output feeds decisions about people.	Deployer	2 August 2026 Art. 113

3. Customer Support Chatbot

Answers account and product questions on the website and hands over to a human agent. · Owner: Andreea Stan · Embedded (Conversa AI GmbH) · Limited risk · Provider & Deployer

ARTICLE	OBLIGATION AND WHY IT APPLIES	CARRIED AS	APPLIES FROM
Art. 4	**AI literacy** Take measures to ensure that staff and others who operate or use the system on the company's behalf have a sufficient level of AI literacy, taking into account their knowledge, experience and the context of use. Why it applies: Applies to every provider and deployer of an AI system in scope, whatever its risk class.	Provider & Deployer	2 February 2025 Art. 113(a)
Art. 50(1)	**Disclose interaction with an AI system** Design the system so that people interacting with it are informed that they are interacting with an AI system, unless this is obvious from the context. Why it applies: The company provides a system intended to interact directly with natural persons.	Provider	2 August 2026 Art. 113
Art. 50(2)	**Mark synthetic content** Ensure that synthetic audio, image, video or text output is marked in a machine-readable format and detectable as artificially generated or manipulated. Why it applies: The company provides a system that generates synthetic content.	Provider	2 August 2026 Art. 113

4. Fraud Detection Alerts

Flags suspicious card transactions for the fraud team to review. · Owner: Victor Enache · Built · Minimal risk · Provider & Deployer

ARTICLE	OBLIGATION AND WHY IT APPLIES	CARRIED AS	APPLIES FROM

Art. 4	**AI literacy** Take measures to ensure that staff and others who operate or use the system on the company's behalf have a sufficient level of AI literacy, taking into account their knowledge, experience and the context of use. Why it applies: Applies to every provider and deployer of an AI system in scope, whatever its risk class.	Provider & Deployer	2 February 2025 Art. 113(a)
