EU AI ACT (REGULATION (EU) 2024/1689) · ALL STEPS

Combined pack

NovaBank Retail SRL

The AI inventory, risk classification, obligation mapping, gap assessment and compliance roadmap in one PDF, under one cover and one review.

Main provisions: Arts. 3 to 27, 43, 47 to 50, 72, 73; Annexes I and III

CLIENT	STATUS
NovaBank Retail SRL	Draft
VERSION	DATE
Version 1	11 November 2026 (generated)
REVIEWER	RELEASED TO CLIENT
Not yet approved by a reviewer	Not released
LEGAL CONTENT VERSION	PREPARED BY
2026.10-draft.1	Elena Marin, SenecAI

Draft: not approved. This document has not been approved by a named reviewer and must not be relied on as the reviewed assessment.

APPLICABILITY CHECK

Run on 11 November 2026 on legal content 2026.10-draft.1. Only the EU AI Act is covered in this version of the platform; other findings are shown for information.

REGULATION	RESULT	PROVISION	FINDING
EU AI Act (Regulation (EU) 2024/1689)	Applies	**Art. 2(1)**	Applies. The AI inventory and classification are opened for this client.
GDPR (Regulation (EU) 2016/679)	Applies	**Art. 2(1), Art. 3**	Applies to the processing of personal data. Not covered by the Hub in this version.
DORA (Regulation (EU) 2022/2554)	Likely	**Art. 2(1)**	Likely applies if the company is one of the financial entities listed in Art. 2(1). Not covered by the Hub in this version.
NIS2 (Directive (EU) 2022/2555)	Likely	**Art. 2(1), Annexes I–II**	Likely applies to medium and large entities in the sectors of Annexes I and II, as transposed nationally. Not covered by the Hub in this version.

This PDF is a dated snapshot of the structured record kept in the Governance Hub. It is not edited: when the record changes, the document is marked outdated and a new version is generated. Classification, obligations and dates come from the versioned legal content named above, not from AI. Narrative source: filled from the rules and reviewer rationales (no AI drafting). Input hash 71625ada40ddc3c3.

STEP 1 · ARTS. 3 AND 26; ART. 4 (AI LITERACY)

AI inventory

INVENTORY SUMMARY

The inventory records 5 AI systems: 2 built in-house, 2 bought and 1 embedded in other products or services. 4 of them have been classified. **[Art. 3(1)]**

The company acts as provider for 3 systems and as deployer for 4 systems. Deployers must use high-risk systems in line with their instructions for use, assign human oversight and keep the logs under their control. **[Art. 3(3); Art. 3(4); Art. 26]**

Providers and deployers must take measures to ensure a sufficient level of AI literacy among staff who operate or use these systems. **[Art. 4]**

AI SYSTEM	OWNER	ORIGIN / SUPPLIER	COMPANY ROLE	RISK CLASS
CV Screening Assistant	Laura Petrescu	Bought · TalentRank BV	Deployer	High-risk (preliminary)
Credit Scoring Engine	Mihai Georgescu	Built	Provider & Deployer	High-risk
Customer Support Chatbot	Andreea Stan	Embedded · Conversa AI GmbH	Provider & Deployer	Limited risk (preliminary)
Fraud Detection Alerts	Victor Enache	Built	Provider & Deployer	Minimal risk (preliminary)
Marketing Copy Generator	Andreea Stan	Bought · WriteWell Inc.	Not classified	—

1. CV Screening Assistant

PURPOSE

Pre-ranks external candidates for open roles before HR review.

ACCOUNTABLE OWNER

Laura Petrescu, HR Director

ORIGIN

Bought · supplier: TalentRank BV

DATA USED

CVs, Application forms

WHERE DEPLOYED

HR recruitment, used as provided by the vendor

USE

Internal operations

STEP 2 · ARTS. 5, 6, 50; ANNEXES I AND III

Risk classification

CLASSIFICATION SUMMARY

CV Screening Assistant is classified as high-risk. The company acts as deployer. The result is preliminary and has not yet been reviewed. **[Art. 3(4); Art. 6(2), Annex III; Art. 6(3), last subparagraph]**

Credit Scoring Engine is classified as high-risk. The company acts as provider and deployer. A reviewer confirmed the result. **[Art. 3(3); Art. 3(4); Art. 6(2), Annex III; Art. 6(3), last subparagraph]**

Customer Support Chatbot is classified as limited-risk. The company acts as provider and deployer. The result is preliminary and has not yet been reviewed. **[Art. 3(3), Art. 3(68); Art. 3(4); Art. 50(1); Art. 50(2)]**

Fraud Detection Alerts is classified as minimal-risk. The company acts as provider and deployer. The result is preliminary and has not yet been reviewed. **[Art. 3(3); Art. 3(4); Art. 7; Art. 95]**

Marketing Copy Generator has not been classified yet.

1. CV Screening Assistant

Pre-ranks external candidates for open roles before HR review. · Owner: Laura Petrescu · Bought (TalentRank BV) · High-risk · Deployer

Preliminary — not yet reviewed · classification v1 · legal content 2026.10-draft.1

RISK CLASS
High-risk

COMPANY'S ROLE
Deployer

HIGH-RISK TEST (ART. 6)
High-risk on the basis of Annex III

PROHIBITED PRACTICES (ART. 5)
No prohibited practice identified

TRANSPARENCY DUTIES (ART. 50)
None

LEGAL REASONING

Role (Art. 3, Art. 25)

– The company uses the system under its authority in a professional capacity, so it is a deployer. **[Art. 3(4)]**

High-risk test (Art. 6, Annexes I and III)

– The system's intended purpose is listed in Annex III, so it is high-risk unless the Art. 6(3) derogation applies. **[Art. 6(2), Annex III]**

– The system profiles natural persons, so the Art. 6(3) derogation cannot apply: an Annex III system that profiles is always high-risk. **[Art. 6(3), last subparagraph]**

2. Credit Scoring Engine

Scores retail loan applicants' creditworthiness and feeds the underwriting decision. · Owner: Mihai Georgescu · Built · High-risk · Provider & Deployer

Confirmed by Elena Marin, 11 November 2026 · classification v1 · legal content 2026.10-draft.1

RISK CLASS
High-risk

COMPANY'S ROLE
Provider & Deployer

HIGH-RISK TEST (ART. 6)
High-risk on the basis of Annex III, Annex III point 5b

PROHIBITED PRACTICES (ART. 5)
No prohibited practice identified

TRANSPARENCY DUTIES (ART. 50)
None

LEGAL REASONING

Role (Art. 3, Art. 25)

– The company develops the system and places it on the market or puts it into service under its own name, so it is the provider. **[Art. 3(3)]**

– The company uses the system under its authority in a professional capacity, so it is a deployer. **[Art. 3(4)]**

DRAFT

High-risk test (Art. 6, Annexes I and III)

– The system's intended purpose is listed in Annex III, so it is high-risk unless the Art. 6(3) derogation applies. **[Art. 6(2), Annex III]**

– The system profiles natural persons, so the Art. 6(3) derogation cannot apply: an Annex III system that profiles is always high-risk. **[Art. 6(3), last subparagraph]**

3. Customer Support Chatbot

Answers account and product questions on the website and hands over to a human agent. · Owner: Andreea Stan · Embedded (Conversa AI GmbH) · Limited risk · Provider & Deployer

Preliminary — not yet reviewed · classification v1 · legal content 2026.10-draft.1

RISK CLASS
Limited risk

COMPANY'S ROLE
Provider & Deployer

HIGH-RISK TEST (ART. 6)
Not high-risk

PROHIBITED PRACTICES (ART. 5)
No prohibited practice identified

TRANSPARENCY DUTIES (ART. 50)
Art. 50(1), Art. 50(2)

LEGAL REASONING

Role (Art. 3, Art. 25)

– The company integrates a third-party model into a product it offers under its own name, so it is the provider of the resulting system (and a downstream provider of the model). **[Art. 3(3), Art. 3(68)]**

– The company uses the system under its authority in a professional capacity, so it is a deployer. **[Art. 3(4)]**

Transparency (Art. 50)

– The system interacts directly with natural persons, so they must be informed they are interacting with an AI system unless that is obvious. **[Art. 50(1)]**

– The system generates synthetic audio, image, video or text, so its outputs must be marked in a machine-readable format and detectable as artificially generated. **[Art. 50(2)]**

4. Fraud Detection Alerts

Flags suspicious card transactions for the fraud team to review. · Owner: Victor Enache · Built · Minimal risk · Provider & Deployer

Preliminary — not yet reviewed · classification v1 · legal content 2026.10-draft.1

RISK CLASS
Minimal risk

COMPANY'S ROLE
Provider & Deployer

HIGH-RISK TEST (ART. 6)
Not high-risk

PROHIBITED PRACTICES (ART. 5)
No prohibited practice identified

TRANSPARENCY DUTIES (ART. 50)
None

Point for the reviewer: Not listed in Annex III, but the system influences access to rights or essential services. Reviewer should check the Annex III wording closely and watch for Commission amendments under Art. 7.

LEGAL REASONING

Role (Art. 3, Art. 25)

– The company develops the system and places it on the market or puts it into service under its own name, so it is the provider. **[Art. 3(3)]**

– The company uses the system under its authority in a professional capacity, so it is a deployer. **[Art. 3(4)]**

High-risk test (Art. 6, Annexes I and III)

– The system influences access to rights or essential services without matching an Annex III point. This does not make it high-risk, but it is flagged for the reviewer. **[Art. 7]**

Risk class

– No prohibited practice, high-risk use case or transparency duty applies. The system is minimal-risk: only AI literacy (Art. 4) applies, and voluntary codes of conduct are encouraged (Art. 95). **[Art. 95]**

5. Marketing Copy Generator

STEP 3 · ARTS. 8 TO 27, 43, 47 TO 49, 72, 73

Obligation mapping

OBLIGATION SUMMARY

9 obligations apply to CV Screening Assistant, carried by the company as deployer. **[Art. 4; Art. 26(1); Art. 26(2); Art. 26(4); Art. 26(5); Art. 26(6); Art. 26(7); Art. 26(11); Art. 86]**

24 obligations apply to Credit Scoring Engine, carried by the company as provider and deployer. **[Art. 4; Art. 9; Art. 10; Art. 11, Annex IV; Art. 12; Art. 13; Art. 14; Art. 15; Art. 17; Art. 43; Art. 47; Art. 48; Art. 49(1); Art. 72; Art. 73; Art. 26(1); Art. 26(2); Art. 26(4); Art. 26(5); Art. 26(6); Art. 26(7); Art. 26(11); Art. 27; Art. 86]**

3 obligations apply to Customer Support Chatbot, carried by the company as provider and deployer. **[Art. 4; Art. 50(1); Art. 50(2)]**

1 obligation applies to Fraud Detection Alerts, carried by the company as provider and deployer. **[Art. 4]**

Application dates come from legal content 2026.10-draft.1. The timeline for high-risk obligations has been under proposed amendment and may move; a change marks this document outdated.

1. CV Screening Assistant

Pre-ranks external candidates for open roles before HR review. · Owner: Laura Petrescu · Bought (TalentRank BV) · High-risk · Deployer

ARTICLE	OBLIGATION AND WHY IT APPLIES	CARRIED AS	APPLIES FROM
Art. 4	**AI literacy** Take measures to ensure that staff and others who operate or use the system on the company's behalf have a sufficient level of AI literacy, taking into account their knowledge, experience and the context of use. Why it applies: Applies to every provider and deployer of an AI system in scope, whatever its risk class.	Deployer	2 February 2025 Art. 113(a)
Art. 26(1)	**Use in line with the instructions for use** Take appropriate technical and organisational measures to use the system in accordance with the instructions for use that accompany it. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(2)	**Assign human oversight** Assign human oversight to people who have the necessary competence, training and authority, and give them the support they need. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(4)	**Relevant input data** To the extent the company controls the input data, ensure it is relevant and sufficiently representative for the system's intended purpose. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(5)	**Monitor operation and inform the provider** Monitor the system's operation on the basis of the instructions for use, inform the provider of risks, suspend use where needed, and report serious incidents. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(6)	**Keep the logs** Keep the automatically generated logs under the company's control for a period appropriate to the purpose, of at least six months unless other law provides otherwise. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113

DRAFT

Art. 26(7)	**Inform workers and their representatives** Before putting the system into service or using it at the workplace, inform workers' representatives and the affected workers that they will be subject to it. Why it applies: The company is a deployer of a high-risk system. This applies when the system is used at the workplace.	Deployer	2 August 2026 Art. 113
Art. 26(11)	**Inform people subject to decisions** Where an Annex III system makes or assists decisions about natural persons, inform them that they are subject to the use of the system. Why it applies: The company deploys an Annex III high-risk system that makes or assists decisions about people.	Deployer	2 August 2026 Art. 113
Art. 86	**Right to explanation** A person subject to a decision based on an Annex III system's output that has legal or similarly significant effects can ask the deployer for a clear and meaningful explanation of the system's role and the main elements of the decision. Why it applies: The company deploys an Annex III high-risk system whose output feeds decisions about people.	Deployer	2 August 2026 Art. 113

2. Credit Scoring Engine

Scores retail loan applicants' creditworthiness and feeds the underwriting decision. · Owner: Mihai Georgescu · Built · High-risk · Provider & Deployer

ARTICLE	OBLIGATION AND WHY IT APPLIES	CARRIED AS	APPLIES FROM
Art. 4	**AI literacy** Take measures to ensure that staff and others who operate or use the system on the company's behalf have a sufficient level of AI literacy, taking into account their knowledge, experience and the context of use. Why it applies: Applies to every provider and deployer of an AI system in scope, whatever its risk class.	Provider & Deployer	2 February 2025 Art. 113(a)
Art. 9	**Risk management system** Establish, document and maintain a risk management system running through the whole lifecycle: identify and analyse foreseeable risks to health, safety and fundamental rights, estimate them, adopt mitigation measures and test the system. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 10	**Data and data governance** Training, validation and testing data must be subject to governance practices: documented design choices and collection, examination for possible biases, and data that is relevant, representative and as free of errors as possible. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 11, Annex IV	**Technical documentation** Draw up technical documentation before the system is placed on the market or put into service, with at least the elements of Annex IV, and keep it up to date. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113

DRAFT

Art. 12	**Record-keeping (logging)** The system must technically allow automatic recording of events (logs) over its lifetime, sufficient to identify risks, support post-market monitoring and monitor its operation. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 13	**Transparency and instructions for use** Design the system so deployers can interpret and use its output, and provide instructions for use covering the provider's identity, the system's characteristics, capabilities and limitations, human oversight measures and expected lifetime. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 14	**Human oversight by design** Design the system so natural persons can effectively oversee it while in use: understand its capacities and limits, detect anomalies, avoid automation bias, interpret output, and override or stop it. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 15	**Accuracy, robustness and cybersecurity** Achieve an appropriate level of accuracy, robustness and cybersecurity throughout the lifecycle, declare accuracy metrics in the instructions for use, and protect the system against errors, feedback loops and attacks such as data poisoning. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 17	**Quality management system** Put in place a documented quality management system covering compliance strategy, design and development controls, testing, data management, risk management, post-market monitoring, incident reporting and accountability. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 43	**Conformity assessment** Before placing the system on the market or putting it into service, carry out the applicable conformity assessment procedure (internal control under Annex VI, or with a notified body under Annex VII where required). Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 47	**EU declaration of conformity** Draw up a written EU declaration of conformity with the content of Annex V for each system and keep it for 10 years. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 48	**CE marking** Affix the CE marking visibly, legibly and indelibly to the system, or digitally for systems provided digitally, or to its packaging or documentation. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 49(1)	**Registration in the EU database** Before placing an Annex III high-risk system on the market or putting it into service, register the company and the system in the EU database (Art. 71). Why it applies: The company is the provider of a high-risk system listed in Annex III.	Provider	2 August 2026 Art. 113

DRAFT

Art. 72	**Post-market monitoring** Establish and document a post-market monitoring system that collects and analyses data on the system's performance throughout its lifetime, based on a post-market monitoring plan. Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 73	**Serious incident reporting** Report any serious incident to the market surveillance authority of the Member State where it occurred, immediately after establishing a causal link and no later than 15 days after becoming aware of it (shorter deadlines for widespread infringements and deaths). Why it applies: The company is the provider of a high-risk system.	Provider	2 August 2026 Art. 113
Art. 26(1)	**Use in line with the instructions for use** Take appropriate technical and organisational measures to use the system in accordance with the instructions for use that accompany it. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(2)	**Assign human oversight** Assign human oversight to people who have the necessary competence, training and authority, and give them the support they need. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(4)	**Relevant input data** To the extent the company controls the input data, ensure it is relevant and sufficiently representative for the system's intended purpose. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(5)	**Monitor operation and inform the provider** Monitor the system's operation on the basis of the instructions for use, inform the provider of risks, suspend use where needed, and report serious incidents. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(6)	**Keep the logs** Keep the automatically generated logs under the company's control for a period appropriate to the purpose, of at least six months unless other law provides otherwise. Why it applies: The company is a deployer of a high-risk system.	Deployer	2 August 2026 Art. 113
Art. 26(7)	**Inform workers and their representatives** Before putting the system into service or using it at the workplace, inform workers' representatives and the affected workers that they will be subject to it. Why it applies: The company is a deployer of a high-risk system. This applies when the system is used at the workplace.	Deployer	2 August 2026 Art. 113
Art. 26(11)	**Inform people subject to decisions** Where an Annex III system makes or assists decisions about natural persons, inform them that they are subject to the use of the system. Why it applies: The company deploys an Annex III high-risk system that makes or assists decisions about people.	Deployer	2 August 2026 Art. 113

DRAFT

Art. 27	**Fundamental rights impact assessment** Before first use, assess the impact on fundamental rights: the processes in which the system is used, the period and frequency of use, the people affected, the specific risks of harm, human oversight measures and the measures if risks materialise. Notify the market surveillance authority of the results. Why it applies: The company deploys an Annex III high-risk system and is a public body or provides public services, or the system evaluates creditworthiness or prices life or health insurance.	Deployer	2 August 2026 Art. 113
Art. 86	**Right to explanation** A person subject to a decision based on an Annex III system's output that has legal or similarly significant effects can ask the deployer for a clear and meaningful explanation of the system's role and the main elements of the decision. Why it applies: The company deploys an Annex III high-risk system whose output feeds decisions about people.	Deployer	2 August 2026 Art. 113

DRAFT

STEP 5 · SAME, PLUS LINKED EVIDENCE

Gap assessment

OVERALL READINESS

8%

Readiness is the share of applicable obligations met: compliant counts in full, partial counts half, gap and not yet assessed count as not met. Initial assessment (Stage 1), built by the reviewer from the classification answers and the client interview.

ASSESSMENT SUMMARY

Of 37 applicable obligations, 2 are assessed as compliant, 2 as partial and 3 as gap; 30 are not yet assessed. Overall readiness: 8%.

This is the initial assessment of Stage 1: the reviewer built it from the classification answers and the client interview. Evidence has not yet been collected against each obligation; the evidence index lists the evidence the legal content expects.

Credit Scoring Engine, Risk management system: Model risk framework exists under banking rules, but does not yet cover fundamental-rights risks. **[Art. 9]**

Credit Scoring Engine, Data and data governance: No documented bias examination of training data. **[Art. 10]**

Credit Scoring Engine, Technical documentation: Model documentation exists but not in Annex IV structure. **[Art. 11, Annex IV]**

Credit Scoring Engine, Human oversight by design: Underwriters can override scores, but no documented guidance against automation bias. **[Art. 14]**

Credit Scoring Engine, Fundamental rights impact assessment: No fundamental rights impact assessment carried out. **[Art. 27]**

STEP 6 · ALL OBLIGATIONS IN THE GAP ASSESSMENT

Compliance roadmap

ROADMAP SUMMARY

5 open actions: 5 in phase 1 (now), 0 in phase 2 (next) and 0 in phase 3 (later). 1 legal and 4 technical. **[Art. 9; Art. 10; Art. 11, Annex IV; Art. 14; Art. 27]**

Phase 1 covers obligations that already apply or apply within six months; phase 2 those that apply within eighteen months, or small pieces of work; phase 3 the rest. Each action closes when its obligation is assessed as compliant.

Phase 1 — now

Already applies, or applies within six months.

ACTION	TYPE	SYSTEM · ARTICLE	EFFORT	OWNER	DEADLINE · STATUS
Set up and document the risk management system for this system Partial · Risk management system	Technical	Credit Scoring Engine **Art. 9**	Large	—	No deadline Open
Document data governance and run a bias examination of training data Gap · Data and data governance	Technical	Credit Scoring Engine **Art. 10**	Large	—	No deadline Open
Draft the Annex IV technical documentation Gap · Technical documentation	Technical	Credit Scoring Engine **Art. 11, Annex IV**	Large	—	No deadline Open
Design and document human oversight measures, including a stop function Partial · Human oversight by design	Technical	Credit Scoring Engine **Art. 14**	Medium	—	No deadline Open
Carry out and notify the fundamental rights impact assessment Gap · Fundamental rights impact assessment	Legal	Credit Scoring Engine **Art. 27**	Medium	—	No deadline Open

Implementation
Legal and technical implementation is a human service. Any action above can be sent from the roadmap in the Governance Hub as a scoped request for implementation; the roadmap is complete without one.
